26th January 2022

Dear IGA Retailers,

After a detailed review please be advised that the previous order slimming measures that have been in place for the past few weeks have now been removed.

Whilst we still foresee challenges in stock availability of certain lines in the coming weeks, the capacity issues that SIW were experiencing are easing, which was the driving force behind the need for slimming measures and SIW will continue to manage any workforce challenges as best as possible to fulfill orders.

We thank you for your support and understanding throughout this challenging period and ask that Stores place fair and reasonable order quantities and not place out of sequence or additional orders.

Best Regards,

Drew Freeman
