

## 20% off for the month of August

Welcome to Loving Earth's new range of Pocket 45s! We've taken 2 of the our favourites to the next level...and then we've added one fresh classic and a crowd pleaser. These four Pocket 45's form a permanent offering, with seasonal releases of unexpected flavours and future classics to follow. All of these 45s have been developed for the senses, with contrasting flavours and textures. Think tangy with petal soft, silky with a roasted crunch, creamy with a chocolate crumble..

All Pocket 45's packaging is home compostable with a shipper box from recycled board and vegetable inks.
