RE: Price Increase Notification

Dear Customer,

Please be advised that Mr Fothergill's Seeds will be increasing prices across our seed ranges effective 1st August 2023.

Whilst we work hard to control cost across our business, we have experienced continued pressures and most significantly in raw materials, high fuel charges in national freight and wages. The combination of these elements have resulted in a need for us to implement price increases to the market.

Detail of retail price movements can be found in the accompanying appendix further below.

These changes will take effect from the 1st of August 2023 and will in turn allow us to continue to deliver quality products with a great level of service. Wholesale discounts will remain constant and new costs per product can be obtained by contacting our accounts department at accounts@fothergills.com.au.

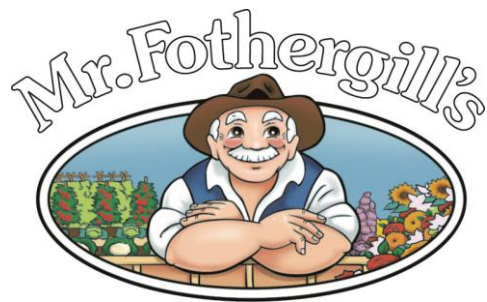

Should you have documentation that requires submission or electronic price files that need updating, please contact your account manager or our accounts department.

I would like to take this opportunity to thank you for your ongoing support and assure you that our focus remains on providing your business with quality products and high-level service.

Yours sincerely,

Paul Joyce
