

Innovative Cleaning & Surface Protection Solutions

Rubbedin Pty Ltd
PO Box 1105
Capalaba QLD 4157

Dear Valued Customer

Firstly, I wanted to thank you for your continued support of Rubbedin products. This last 18 months have been very challenging and unfortunately, I must advise you of some price increases that Rubbedin has no option but to pass on.

This increase relates to specific products affected by the cost pressures, but happy to advise that with the InvisiGarde range been held at the 2021 levels. The products that have been affected by increases are caused by the rise in the costs of raw materials especially chemicals, import freight costs, domestic transport, staff, overheads, and exchange rates.

Please see below for a breakdown analysis of our cost changes:

Chemicals	up 2.5% to 150%
Packaging	up 2.2% to 10.3%
Overheads	up 2.5%
Transport/Freight	up 10.2% to 35.5%
Staff	up 3% to 5%

On the products that have increased prices they are between 2.5% to 7% depending on the product. This will be effective 1 September 2022, please see your new Price List.

This change allows us to continue to deliver superior products to customers using the highest quality raw materials and advanced technologies our customers have come to expect.

For any inquiries, suggestions, and concerns regarding the increase or our services, do not hesitate to call on 07 3245 3255.

Thank you for your continuing patronage and support.

Regards

Ian Smits
