Dear Superfresh Seafoods Pty Ltd Customers

As you may be aware, the scallop fishing has been particularly difficult for the fishermen this season, and the catching has been slower than other years. The fishermen are currently fishing on a patch of scallops where good quality, larger scallops, are available, however the beds are far away, and the fishing itself is slow.

For this reason, the fishermen we have catching for us, have decided to put their beach price up (the price we pay to the fishermen) \$2/kg, to try to cover some of these increase in costs.

As of next week (Monday 8th November), the price of all scallops (fresh and frozen) will be going up by \$2/kg. This \$2 will be passed directly on to the fisherman. I apologise for any inconvenience this will cause, but it is either pay the extra to the fishermen, or it would no longer be viable for them to continue fishing, and the season would close early.

I appreciate your understanding

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Alanna Stanford".
