NEW BOARDS INOCULATED WITH BACTERIA FOR TEST PURPOSES	NEW	NO BACTERIA

NATA Accredited Laboratory Number: 15435,
Accredited for Compliance with ISO/IEC 17025 - Testing.

THE BENEFITS OF FAB SLABS CUTTING BOARDS

- Eco Friendly
- Fab Slabs boards are 100% Australian Made
- Fab Slabs boards are made from One Single Solid Timber Slab
- No Glues, No Joins, No Chemicals, No Plastics, No Toxins
- Each piece is Unique in Colour, Grain and Character
- Preferred by Food Standards Australia & New Zealand

Fab Slabs®

CUTTING BOARDS AND GRAZERS

• Timber Species

Our boards are made from Australian Camphor Laurel. The anti-microbial chemicals found in Camphor Laurel occur naturally and after the wood is kiln dried, present no issue in terms of contaminating food. You can cut all meats, fishes, veggies and even use them as a cheese platter when entertaining friends and family.

• Clean your Board

- Wash your board thoroughly after each use with mild dish soap and hot water.
- DO NOT soak it or put it in the dish washer, just towel dry and put away.
- DO NOT leave your board out in the sun.

• Oil Board

When your board is looking dry, we recommend oiling it with grape seed oil. This will help keep your board in great condition (allowing for fair wear and tear)
