# New Coat High Temp Paint

Black satin finish

**Prevents rust and Heat resistant to 500°C**

- Perfect for heat-exposed metal that's rusting or needing a new coat
- Restores that brand new, satin black finish to stoves, flues, and BBQs
- No primer needed
- Easy application
- Coverage: 13-18m<sup>2</sup> per L
- Certified Australian made and owned

New Coat High Temp Paint is a self-priming, silicone-based, low sheen, heat resistant paint which withstands continuous temperatures up to 350°C (and up to 500°C for short time periods). It may be painted directly onto cast iron, steel, and stainless steel. Suitable for pot-belly stoves, heaters, ovens, flues, barbecues and exhaust manifolds.
