

# Testing, Quarantine and Isolation Plan

	Positive COVID-19 Case	Unvaccinated Close Contact	Vaccinated Close Contact	Casual Contact	Low-Risk Exposure
 <b>Quarantine or isolation requirements</b>	Isolate for a minimum of 10 days, and potentially longer based on symptoms.	Quarantine for 14 days	Quarantine for 7 days	None	None
 <b>Testing Requirements</b>	No further testing requirements, can leave after meeting the criteria for release from isolation.	<b>Minimum 2 tests:</b> <ul style="list-style-type: none"> <li>• Tested immediately</li> <li>• Tested on day 12-13</li> <li>• Can leave after 14 days and a negative test on day 12-13</li> </ul>	<b>Minimum 3 tests:</b> <ul style="list-style-type: none"> <li>• Tested immediately</li> <li>• Tested on day 5-6</li> <li>• Tested on day 12-13</li> <li>• Can leave after 7 days and a negative test on day 5-6</li> </ul>	<b>Minimum 1 test:</b> <ul style="list-style-type: none"> <li>• Tested on day 3-5</li> <li>• Test if symptoms develop</li> </ul>	<b>None:</b> <ul style="list-style-type: none"> <li>• Test if symptoms develop</li> </ul>
 <b>Household isolation or quarantine requirements</b>	Isolate in a suitable premises. If people are in the same house they become close contacts.	Unvaccinated people in the same household to follow the same quarantine requirements. Vaccinated people in the household avoid high risk settings for 14 days and may be required to wear a face mask	Unvaccinated people in the same household to follow the same quarantine requirements.	None	None
 <b>Other requirements</b>	People with prolonged symptoms may need to isolate for longer periods of time.	None	From days 8 to 14 wear a mask if you can't physically distance, in the community or at work, do not enter high risk settings (except for essential reasons) and avoid contact with vulnerable people.	Wear a mask when unable to physically distance for 14 days from exposure.	None
 <b>Businesses and venues</b>	<ul style="list-style-type: none"> <li>• Businesses are largely expected to be able to continue to operate if there is a positive case, or casual or close contacts identified on their premises, with their COVID-safety plans in place.</li> <li>• They will be expected to undertake cleaning and disinfecting to reduce any residual risk.</li> <li>• Staff, customers and clients will need to follow the isolation and quarantine guidelines.</li> </ul>				

**A close contact** is a person who has had face to face contact with a COVID-19 case and there is reasonable risk of transmission. This may include household contacts, extensive social interaction with a case or being present at a high risk setting.

**A casual contact** is a person who has been in the same location as a COVID-19 case during their infectious period, but did not have face to face contact.

**A low risk exposure** is someone who has been in the same setting with a COVID-19 case in their infectious period, but has had minimal contact.
