Dear Valued Customer

RE Meander Valley Dairy Cream Supply Challenges

We are experiencing some unexpected issues with the supply of our key ingredient of raw cream. These issues accompanied with unforecasted increases in demand have resulted in us running low or out of stock of some of our Meander Valley Dairy cream and butter products.

This is expected to only be a short-term issue. We are working hard with our suppliers of raw cream to resolve the supply and ensure that we are able to provide our products in a timely manner.

We will be increasing our supply of cream over the next couple of weeks to produce stock for any back orders and ensure that you have stock going in to the Easter period.

We apologise for any inconvenience this has caused. We realise that with Easter just around the corner that the timing is not good and we are working hard to minimise the impact on you.

If there are any changes to this situation, we will let you know as soon as possible.

Yours Faithfully,

David Bennett
