We've got you covered.

Speed Caps: Download speeds on our 4G & 5G networks are capped at 150Mbps for Telstra and Boost on most recharges. Typical speeds will be slower and will vary due to various factors.

Speed capping: Your capped download speed is the maximum potential download speed for data included in your recharge. Factors impacting typical speed include location, distance from the base station, local conditions, concurrent users, hardware and software configuration and download/upload destination. Telstra 5G available in selected areas. Compatible device required. **Telstra Handsets:** An unlocking fee may apply for use with a non-Telstra SIM card. Limit 1 per customer and no trade sales.
